Shelves 3

GREEN SAFE - UNI EN 1143-1 1st grade certification

The GREEN SAFE is the certified and elegant safe for everyone!

Thanks to its appealing look, the free standing GREEN SAFE may fit prestigious private or business environments.

The Green Safe is certified according to the UNI EN 1143-1 1st grade regulation.

Its stylish green colour recalls previous Conforti Models, whose charming look has always been very much appreciated. The beautiful bronze handle and keyhole cover show particular decorations from drawings of the end of the 19th century.

The two models:

- The GREEN SAFE with inside movable shelves and led light (battery included)
- The LUX GREEN SAFE with the same outside as the above safe but with inside furnishing in lacquered wood and 3 glass shelves. Led lights embellish the interior along the 3 sides, except the base. This safe is power supplied.

According to the European regulation the certified **GREEN SAFE may have floor or wall anchorage.**

Specifications

- Inside and outside walls in high quality steel
 - Multilayer armoured shield with special conglomerate
 - manganese plate protecting closing mechanisms against mechanical attacks
 - Cut-proof protection of the door, fastened to the frame by movable cylindrical bolts (30 mm diameter) which are fixed on hinges side
 - 180° door opening to facilitate inside access
 - Anchoring holes at the base and the back as required by certification (specific screws included)
 - Certified key lock (UNI EN 1300 –B grade), other locks on request
-
